Compare & Contrast Harvey F. Silver 2010 You're holding a new kind of professional development tool called a Strategic Teacher PLC Guide. Designed in partnership with more than 75 schools, Strategic Teacher PLC Guides make the important work of bringing high-impact, research-based instructional practices into every classroom easier than ever before. Each guide focuses on one strategy from the best-selling ASCD book *The Strategic Teacher: Selecting the Right Research-Based Strategy for Every Lesson* and serves as a complete professional development resource for a team of teachers (or professional learning community) to learn, plan, and implement the strategy in their classrooms. This guide focuses on Reading for Meaning, a reading and reasoning strategy that helps students understand new ideas, make inferences, and support their thinking with evidence. The strategy is designed around research showing that proficient readers use a specific set of thinking skills to build deep understanding of the texts they read and apply those skills in three distinct phases: before reading, during reading, and after reading. Reading for Meaning gives all students the opportunity to practice this three-phase approach by* Using simple statements to preview and predict before reading.* Actively searching for relevant evidence during reading.* Reflecting on and synthesizing both their learning and their thinking process after reading. This PLC Guide takes you and your colleagues on a "guided tour" of Reading for Meaning, enabling you to* Learn how Reading for Meaning builds reading, reasoning, and problem-solving skills.* Experience a model lesson using the Reading for Meaning strategy and learn from sample lessons and planning forms designed by other teachers.* Plan a complete Reading for Meaning lesson for your classroom.* Reflect deeply on your lesson to refine and expand your use of the strategy.* Examine student work at various levels of proficiency and use your findings to plan next steps in building students' reading, thinking, and comprehension skills. Harvey F. Silver, president of Silver Strong & Associates and Thoughtful Education Press, is a nationally recognized presenter and professional development specialist. He has collaborated with Richard Strong and Matthew Perini on several best sellers in education, including ASCD's *The Strategic Teacher* and Thoughtful Education Press's award-winning *Tools for Promoting Active, In-Depth Learning*. Susan C. Morris, an experienced consultant and former classroom teacher, develops practical applications for teachers, students, and parents in the areas of differentiated instruction, brain-based research, experiential learning, and curriculum design. Victor Klein, a former building-level administrator, has been a Silver Strong & Associates trainer for 25 years. He is an expert in professional learning communities, administrative training, and unit and lesson design.

Text-Dependent Questions, Grades 6-12 Douglas Fisher 2014-09-02 Fisher & Frey's answer to close and critical reading Learn the best ways to use text-dependent questions as scaffolds during close reading and the big understandings they yield. But that's just for starters. Fisher and Frey also include illustrative video, texts and questions, cross-curricular examples, and an online facilitator's guide—making the two volumes of TDQ a potent professional development tool across all of K–12. The genius of TDQ is the way Fisher and Frey break down the process into four cognitive pathways: What does the text say? How does the text work? What does the text mean? What does the text inspire you to do?

IEP Goal Writing for Speech-Language Pathologists Lydia Kopel 2020-06-15 IEP Goal Writing for Speech-Language Pathologists: Utilizing State Standards, Second Edition familiarizes the speech-language pathologist (SLP) with specific Early Learning Standards (ELS) and Common Core State Standards (CCSS) as well as the speech-language skills necessary for students to be successful with the school curriculum. It also describes how to write defensible Individualized Education Plan (IEP) goals that are related to the ELS and CCSS. SLPs work through a set of steps to determine a student's speech-language needs. First, an SLP needs to determine what speech-language skills are necessary for mastery of specific standards. Then, the SLP determines what prerequisite skills are involved for each targeted speech-language skill. Finally, there is a determination of which Steps to Mastery need to be followed. It is through this process that an SLP and team of professionals can appropriately develop interventions and an effective IEP. The text takes an in-depth look at the following speech-language areas: vocabulary, questions, narrative skills/summarize, compare and contrast, main idea and details, critical thinking, pragmatics, syntax and morphology, and articulation and phonological processes. These areas were selected because they are the most commonly addressed skills of intervention for students aged 3 to 21 with all levels of functioning. For each listed area, the text analyzes the prerequisite skills and the corresponding Steps to Mastery. It provides a unique, step-by-step process for transforming the Steps to Mastery into defensible IEP goals. The key is to remember that the goal must be understandable, doable, measurable, and achievable. This text provides clear guidelines of quantifiable building blocks to achieve specific goals defined by the student's IEP. School-based SLPs are instrumental in helping students develop speech and language skills essential for mastery of the curriculum and standards. All SLPs working with school-aged children in public schools, private practice, or outpatient clinics will
