associated with Display Screen Equipment (DSE) (ie computers and laptops). It will also be useful to employees and their representatives. These Regulations only apply to employers whose workers regularly use DSE as a significant part of their normal work (daily, for continuous periods of an hour or more). These workers are known as DSE users.

MINDS, BRAINS, AND PROGRAMS - University of Southampton

computers given the right programs can be literally said to understand and have other cognitive states. In strong AI, because the programmed computer has cognitive states, the programs are not mere tools that enable us to ... light of our thought experiment. 1 As regards the first claim, it seems to me quite obvious in the example that I do not ...

[The Mythical Man-Month - College of Computing & Informatics](#)

The second fallacious thought mode is expressed in the very unit of effort used in estimating and scheduling: the man-month. Cost does indeed vary as the product of the number of men and the number of months. Progress does not. Hence the man-month as a unit for measuring the size of a job is a dangerous and deceptive myth. It

[An Introduction to corpus Linguistics - University of Michigan ...](#)

The advent of computers led to the creation of what we consider to be modern-day corpora. The first computer-based corpus, the Brown corpus, was created in 1961 and comprised about 1 million words. Today, generalized corpora are hundreds of millions of words in size, and cor- ... You may have thought of these, among others:
