**Life Lessons for Mastering the Law of Attraction** Jack Canfield 2013-02-05

Life Lessons for Mastering the Law of Attraction teaches you what you need to know about living the Law of Attraction and how to create your own personal success through its concepts.

Latino Americans Ray Suarez 2013 EL LIBRO COMPLEMENTARIO DE LA CONOCIDA SERIE DOCUMENTAL DE PBS Latino americanos relata la rica y variada historia de los Latinos que han contribuido a darle forma a nuestra nación, y quienes se han convertido - con más de 50 millones de personas - en la minoría más numerosa de los Estados Unidos. Este complemento de la conocida miniserie de PBS relata, de manera vívida y franca, cómo la historia de los latinoamericanos es la historia de nuestro país. El aclamado periodista y autor Ray Suarez explora las vidas de hombres y

mujeres latinoamericanos en un periodo de quinientos años, e incluye una gama épica de experiencias que abarca desde los primeros asentamientos europeos al Destino Manifiesto; del Salvaje Oeste a la Guerra Fría; de la Gran Depresión a la globalización; de la Guerra Hispano-Estadounidense al movimiento de los derechos civiles. Latino americanos comparte las luchas personales y los éxitos de inmigrantes, poetas, soldados y muchos otros: individuos que han causado un impacto en la historia y aquellos cuyas extraordinarias vidas iluminan la época en que vivieron, así como el legado de estos sensacionales estadounidenses.

**Leadership and Management in the Hospitality Industry** Robert H. Woods 2002

Komodo Dragons James B. Murphy  
2015-03-31 More than twenty years have passed since Walter Auffenberg's monumental *The Behavioral Ecology of the Komodo Monitor*. In the intervening years the populations of Komodo dragons—native only to a handful of islands in southeast Indonesia—have dwindled, sparking intensive conservation efforts. During the last two decades new information about these formidable predators has emerged, and the most important findings are clearly presented here. A memoir from Walter Auffenberg and his son Kurt is followed by the latest information on Komodo dragon biology, ecology, population distribution, and behavior. The second part of the book is dedicated to step-by-step management and conservation

techniques, both for wild and captive dragons. This successful model is a useful template for the conservation of other endangered species as well, for, as Kurt and Walter Auffenberg note, “The species may well indeed survive in the wild for generations to come while countless other organisms are lost.”

Left for Dead Pete Nelson 2002-05-14  
For fans of sea battles, adventures, and war stories like *Unbroken*, this is the incredible true story of a boy who helps to bring closure to the survivors of the tragic sinking of the USS *Indianapolis*, and helps exonerate the ship's captain fifty years later. Hunter Scott first learned about the sinking of the USS *Indianapolis* by watching the movie *Jaws* when he was just eleven-years-old. This was fifty years after the

ship had sunk, throwing more than 1,000 men into shark-infested waters—a long fifty years in which justice still had not been served. It was just after midnight on July 30, 1945 when the USS Indianapolis was torpedoed by a Japanese submarine. Those who survived the fiery sinking—some injured, many without life jackets—struggled to stay afloat as they waited for rescue. But the United States Navy did not even know they were missing. As time went on, the Navy needed a scapegoat for this disaster. So it court-martialed the captain for “hazarding” his ship. The survivors of the Indianapolis knew that their captain was not to blame. For fifty years they worked to clear his name, even after his untimely death. But the navy would not budge—not until Hunter entered the

picture. His history fair project on the Indianapolis soon became a crusade to restore the captain’s good name and the honor of the men who served under him. Praise for *Left for Dead*: Christopher Award Winner An ALA-YALSA Best Nonfiction for Young Adults Book “Compelling, dreadful, and amazing.”—VOYA “This exciting, life-affirming book about war heroics and justice . . . proves without question the impact one student can have on history.”—Booklist “Well written and well documented ... this excellent presentation fills a void in most World War II collections”—School Library Journal “Young readers . . . will no doubt be inspired by the youth’s tenacity—and by the valor of those who served on the Indianapolis.”—The Horn Book *Leadership Coaching* Tony Stoltzfus

2005-06-28 Leadership Coaching is an essential tool for anyone who wants to learn to coach or improve their coaching skills. Written by a top Christian coach trainer, it is filled with real-life stories, practical tools and application exercises that bring coaching techniques to life. Part I is an in-depth look at how coaching fits with the purposes of God. Starting with key biblical concepts about how God builds leaders, this book goes beyond proof-texting to present an integrated, values-based paradigm for leadership coaching. Part II uses a hands-on, interactive approach to show you how to coach. Utilizing the seven key elements of effective coaching as a framework, each facet of the coaching relationship is explained in detail. Then follow-up Master Class sections

help you internalize the key concepts and try them out in real life. Leadership coaching is a great introduction to a powerful way of helping others grow.

### **Linux Operations and Administration**

Alfred Basta 2012-07-23 LINUX OPERATIONS AND ADMINISTRATION introduces readers to Linux operations and system administration through a unified installation, using virtual machines. This text is more effective than those that take a professional approach because it eliminates confusion from working with differing hardware configurations, while allowing users to test interoperability between Linux and Windows. Detailed, yet reader-friendly, Linux Operations and Administration makes it easy to learn Linux and practice it with helpful

in-text features like learning objectives and key terms, as well as items for self assessment such as review questions, hands-on activities, and case projects. Important Notice: Media content referenced within the product description or the product text may not be available in the ebook version.

**Industrial Chemical Cresols and Downstream Derivatives** Asim Kumar Mukhopadhyay 2004-12-20 Meeting the need for a comprehensive source addressing every aspect of cresol production, analysis, and impact, this detailed reference offers the most up-to-date account of cresols and their downstream derivatives, written by an internationally renowned consultant in the fine chemicals industry. This guide

provides a comprehensive and in-depth dis

Like a Splinter in Your Mind Matt Lawrence 2004-07-16 Like a Splinter in Your Mind leads readers through the myriad of philosophical themes within the Matrix trilogy, helping them to gain a better understanding of the films and of philosophy itself. Offers a way into philosophy through the Matrix films. Covers thirteen of the biggest philosophical questions in thirteen self-sufficient chapters suitable for course use. Demonstrates how each of these questions is illustrated through the events and characters of the films. Considers whether sentient machines are possible, and whether we should expect them to face the same existentialist issues that we do. Familiarises readers with key issues

in metaphysics, epistemology, ethics, philosophy of mind, race and gender, existentialism, Taoism and mysticism. Includes a chapter that explains some of the technical elements of the films and confusing aspects of the plot. Also includes a Matrix glossary, and a cast of characters and their related symbolism.

**Lasers in Neurosurgery** R. V. Jeffreys  
1992

THE ZOOLOGICAL JOURNAL. 1829

**Law: A Very Short Introduction**

Raymond Wacks 2008-03-27 Law  
underlies our society - it protects our rights, imposes duties on each of us, and establishes a framework for the conduct of almost every social, political, and economic activity. The punishment of crime, compensation of the injured, and the enforcement of contracts are merely some of the

tasks of a modern legal system. It also strives to achieve justice, promote freedom, and protect our security. The result is a system that, while it touches all of our daily lives, is properly understood by only a few, with its impenetrable jargon, obsolete procedures, and interminable stream of Byzantine statutes and judgments of the courts. This clear, jargon-free Very Short Introduction aims to redress that balance, as it introduces the essentials of law and legal systems in a lively, accessible, and stimulating manner. Explaining the main concepts, terms, and processes of the legal system, it focuses on the Western tradition (the common law and the civil law), but also includes discussions of other legal systems, such as customary law and Islamic

law. And it looks to the future too, as globalization and rapid advances in technology place increasing strain on our current legal system. ABOUT THE SERIES: The Very Short Introductions series from Oxford University Press contains hundreds of titles in almost every subject area. These pocket-sized books are the perfect way to get ahead in a new subject quickly. Our expert authors combine facts, analysis, perspective, new ideas, and enthusiasm to make interesting and challenging topics highly readable.

**Learning to Rank for Information Retrieval and Natural Language Processing, Second Edition**

Hang Li  
2022-05-31 Learning to rank refers to machine learning techniques for training a model in a ranking task. Learning to rank is useful for many

applications in information retrieval, natural language processing, and data mining. Intensive studies have been conducted on its problems recently, and significant progress has been made. This lecture gives an introduction to the area including the fundamental problems, major approaches, theories, applications, and future work. The author begins by showing that various ranking problems in information retrieval and natural language processing can be formalized as two basic ranking tasks, namely ranking creation (or simply ranking) and ranking aggregation. In ranking creation, given a request, one wants to generate a ranking list of offerings based on the features derived from the request and the offerings. In ranking aggregation,

given a request, as well as a number of ranking lists of offerings, one wants to generate a new ranking list of the offerings. Ranking creation (or ranking) is the major problem in learning to rank. It is usually formalized as a supervised learning task. The author gives detailed explanations on learning for ranking creation and ranking aggregation, including training and testing, evaluation, feature creation, and major approaches. Many methods have been proposed for ranking creation. The methods can be categorized as the pointwise, pairwise, and listwise approaches according to the loss functions they employ. They can also be categorized according to the techniques they employ, such as the SVM based, Boosting based, and Neural Network based approaches. The author

also introduces some popular learning to rank methods in details. These include: PRank, OC SVM, McRank, Ranking SVM, IR SVM, GBRank, RankNet, ListNet & ListMLE, AdaRank, SVM MAP, SoftRank, LambdaRank, LambdaMART, Borda Count, Markov Chain, and CRanking. The author explains several example applications of learning to rank including web search, collaborative filtering, definition search, keyphrase extraction, query dependent summarization, and re-ranking in machine translation. A formulation of learning for ranking creation is given in the statistical learning framework. Ongoing and future research directions for learning to rank are also discussed. Table of Contents: Learning to Rank / Learning for Ranking Creation / Learning for Ranking Aggregation /

Methods of Learning to Rank /  
Applications of Learning to Rank /  
Theory of Learning to Rank / Ongoing  
and Future Work

**Life-Changing Bible Verses You Should Know** Erwin W. Lutzer 2011-08-01 After Erwin Lutzer, senior pastor of the Moody Church, and his wife, Rebecca, realized that memorizing Scripture has nearly become a lost pursuit today, they decided to create this practical, relevant resource filled with powerful verses and insightful explanations to help stimulate a spiritual hunger in readers' own lives. With more than 35 topics and questions for reflection and further

study, readers will discover how God's Word will: sustain them in times of need comfort them in seasons of sorrow strengthen their hearts in times and areas of weakness direct their steps and decisions toward God's will These handpicked verses provide a foundation of wisdom and hope to show readers who God is and what He has done for them, as well as who they are and how they can successfully live the Christian life.

**Imagined Democracies** Yaron Ezrahi 2012-10-15 In our era of mass electronic communications, political realities are produced by believable fictions that echo popular desires.
