Kyle's Little Sister BonHyung Jeong 2021-06-22 My name is Grace, not "Kyle's little sister!" Having a good-looking, friendly, outgoing older

brother sucks—especially when you're the total opposite, someone who likes staying home and playing video games. Your parents like him better (even if they deny it!), and everyone calls you "Kyle's little sister" while looking disappointed that you're not more like him. I was really hoping I'd get to go to a different middle school, but no such luck. At least I have my friends...until he finds a way to ruin that, too...! Argh! What do I have to do to get out of his shadow?!

Their plans all coincide with the opening of The Pharaoh's Consort exhibit at the Independence Museum of Art and Science. Investigating a break-in at the museum, the newly appointed police chief's interest turns to the mysterious people and occurrences swirling around the exhibit. The beautiful curator sets her sights on the police chief, while celebrating the demise of her terrorist lover. An emergency room nurse is drawn into the schemers' world. Tempted by a dying patient's last meal, she becomes the target of a monstrous ex-soldier and a chemist with a penchant for

poison. In the volatile mix, a bespectacled government operative suspects he might be working for the wrong side. The hard-boiled action moves from glittery high-society parties to the bleakest corners of the city and violently proves that some gatherings, no matter how enticing, should be avoided.

Law: A Very Short Introduction Raymond Wacks 2008-03-27 Law underlies our society - it protects our rights, imposes duties on each of us, and establishes a framework for the conduct of almost every social, political, and economic activity. The punishment of crime, compensation of the injured, and the enforcement of contracts are merely some of the tasks of a modern legal system. It also strives to achieve justice, promote freedom, and protect our security. The result is a system that, while it touches all of our daily lives, is properly understood by only a few, with its impenetrable jargon, obsolete procedures, and interminable stream of Byzantine statutes and judgments of the courts. This clear, jargon-free Very Short Introduction aims to redress that balance, as it introduces the essentials of law and legal systems in a lively, accessible, and stimulating manner. Explaining the main concepts, terms, and processes of the legal system, it focuses on the Western tradition (the common law and the civil law), but also includes discussions of other legal systems, such as customary law and Islamic law. And it looks to the future too, as globalization and rapid advances in technology place increasing strain on our current legal system. ABOUT THE SERIES: The Very Short Introductions series from Oxford University Press contains hundreds of titles in almost every subject area. These pocket-sized books are the perfect way to get ahead in a new subject quickly. Our expert authors combine facts, analysis, perspective, new ideas, and enthusiasm to make interesting and challenging topics highly readable.
