A is for Allegro Roy McCarthy 2017-06-12 A nostalgic A–Z of the most special and well-remembered 60s, 70s and 80s cars, with stylish illustrations accompanied by warm, humorous personal memories. Designer and illustrator Roy McCarthy explores the cars that made a big impression on him in his younger days, from the sludge-coloured, disappointing Austin Allegro his father brought home in 1975 to the Ford Zephyr he coveted from afar on the way to school. The evocative, colourful illustrations form a visual feast of late 20th-century driving, featuring all the cars drivers of a certain age will remember: the Hillman Imp, the Triumph Dolomite, the Opel Kadett, the Renault 5, and even the lowly Yugo 45 – a whole alphabet’s worth, in fact! The perfect gift for anyone who’s ever owned, been driven around in or hankered after one of these motoring icons. Word count: 15,000

M.i.a. Angels M. P. Romano 2017-07-07

Each "Missing In Action (M.I.A.) Angel" assignment is to be with someone who is willing to give their life in combat to protect or save others. Some just need that additional bit of help to survive, while others need the presence of an "M.I.A. Angel" as they approach death. It's not easy being an "M.I.A. Angel" although it is many times rewarding. The downside is that sometimes there is nothing that can be done to help, other than the assignment knowing that an angel is with them when they die.

Introductory chapters discuss the anatomy, pathophysiology, and imaging of PEDs, highlighting how especially the increasing use of spectral domain OCT enables even small PEDs to be detected and followed over time. The diverse forms of PED are then described, with explanation of how they may hint at the underlying pathology or even be pathognomonic when considered in conjunction with other clinical features. New insights are provided into the characteristics of the various forms of PED, and predictors of complications – such as rip of the PED - are discussed. It is clearly explained how knowledge of the different types of PED and their underlying diseases can assist in creating an appropriate individualized follow-up and therapy scheme for each patient.
