**Philosophy 101 by Socrates** Peter Kreeft 2002 The popular author and Boston College philosophy professor, Kreeft, presents this introduction to philosophy to help beginners not only to understand philosophy but to fall in love with it. In his forty years of teaching philosophy, Kreeft says the most effective way to accomplish this purpose is to read Socrates.

Philosophy means "the love of wisdom." Kreeft uses the dialogues of Socrates in this book to help the reader grow in that love of wisdom. He says that no master of the art of philosophizing has ever been more simple, clear, and accessible to beginners as Socrates. He focuses on Plato's dialogues, the Apology of Socrates, as a model partner for the reader to dialogue with. Kreeft calls it "the Magna Carta of philosophy," a timeless classic that is "a portable classroom."

**Introduction to Asia** Angelina Chavez Irapta 2005

**Tax Made Less Taxing** Ignatius Michael D. Ingles 2015

**Ethics** Jacques P. Thiroux 2009 With a clear presentation, *Ethics: Theory and Practice* educates readers about ethical theory and has them apply what they learn to specific classic and contemporary moral problems (lying, cheating, establishing ethical business practices, honoring ethical obligations in medicine, etc.). Jacques P. Thiroux first wrote this text 1977 in order to educate readers about ethical theory and its applications in a way that beginning students could understand. The result was an accessible text that isn't too technical and doesn't plunge into complex readings without sufficient background. The text is fully updated with global issues and non-Western ethical views. Keith W. Krasemann now continues Thiroux's efforts of making Ethical Ideas accesible to students. Besides updating the foundations of the text, Krasemann incoporates new and relevant material, most of which is often unique only to this text.

**Introduction to Law** Recaredo P. Barte 2020

**Enhancing Humanity** N. Aloni 2007-10-01 In Jean PaulSartre's Nausea,

Roquentin feels bound to listen to the sentimental ramblings about humanism and humanity by the Self Taught Man. "Is it my fault," muses Roquentin, "in all he tells me, I recognize the lack of the genuine article? Is it my fault if, as he speaks, I see all the humanists I have known rise up? I have known so many of them!" And then he lists the radical humanist, the so called "left" humanist, and Communist Humanist, the Catholic humanist, all claiming a passion for their fellow men. "But there are others, a swarm of others: the humanist philosopher who bends over his brothers like a wise older brother with a sense of his responsibility; the humanist who loves men as they are, the humanist who loves men as they ought to be, the one who wants to save them with their consent, and the one who will save them in spite of themselves. . . ." Quite naturally, the skeptical Roquentin ends by saying how "they all hate each other: as individuals, not as men. " Fully aware of the misuse and false comfort in the use of the term, Professor Aloni proceeds to restore meaning to the

word as well as appropriate its educational significance. There is a freshness in this book, a restoration of a lost clarity, a regaining of authentic commitment.

**Basic Trial Techniques** Roberto A. Abad 2018

*The Labor Code* Philippines 1993

**Philosophy in the Age of Science and Capital** Gregory Dale Adamson 2002

Based on an original synthesis of the work of Marx and Bergson, the key theorists of capitalism and creativity, the book presents an astonishing analysis of contemporary science and capital. Exploring in particular genetics, evolutionary theory, commodification and class consciousness, *Philosophy in the Age of Science and Capital* injects life back into contemporary politics, ethics and aesthetics.
